This Horror Science Fiction Story "Human Brain Soup," powerfully illustrates the horrors that farm animals endure by rudely shoving humans in their place. The story tells of the planet Huw, on which super intelligent, ant-like Huwites with 200-pound brains raise one hundred billion humans in automated meat factories as farm animals for their delicious brains. Then one day, the two worlds collide when aliens from the planet Huw visit Earth. They have been sent by the Huwites on a scientific mission. Told in vivid detail and filled with intriguing characters, the story offers an appetizing menu of courses from local heroes to cosmic struggles of good against evil. Each course leaves the reader in suspense and ready for the next. It is a rich and satisfying story, though definitely not for the squeamish. Angela Bellacosa Editing Lane
